

S. Kluska-Nawarecka, Z. Górny, D. Wilk-Kołodziejczyk, A. Smolarek-Grzyb

The logic of plausible reasoning in the diagnosis of castings defects

[Abstract](#)   [Full Text PDF](#)

A. Macioł, R. Wrona, A. Stawowy, P. Macioł

An attempt at formulation of ontology for technological knowledge comprised in technical standards

[Abstract](#)   [Full Text PDF](#)

W. Batko, L. Majkut

The phase trajectories as the new diagnostic discriminants of foundry machines and devices usability

[Abstract](#)   [Full Text PDF](#)

S. Dzik, S. Wolny

Gantry beams vibration control using cast iron cushions

[Abstract](#)   [Full Text PDF](#)

A. Fedoryszyn, P. Zyzak

Characteristics of the abrasive stream depending on design features and operational parameters of a throwing unit in an airless shot-blasting machine

[Abstract](#)   [Full Text PDF](#)

J. Sidor

Mechanical devices used for production of metallic, ceramic-metallic alloys or nano-materials

[Abstract](#)   [Full Text PDF](#)

A. Fedoryszyn, Cz. Rudy

Parameters and processes of synthetic sand rebonding in turbine mixers

[Abstract](#)   [Full Text PDF](#)

J. Jakubski, S.M. Dobosz

The thermal deformation of core and moulding sands according to the hot distortion parameter investigations

[Abstract](#)   [Full Text PDF](#)

T. Mikulczyński, S. Ciskowski, M. Ganczarek, D. Nowak, Ł. Dworzak

Modelling of rheological properties of selected disintegrated media

[Abstract](#)   [Full Text PDF](#)

J. Zych

Monitoring the thixotropic effect in water-clay slurry systems used as a binder for moulding sands

[Abstract](#)   [Full Text PDF](#)

J. Bast, A. Malaschkin

Quality assurance of the compaction process at green sand moulding

[Abstract](#)   [Full Text PDF](#)

A. Kadauw, J. Bast, D. Fiedler, I. Betchvaia, H. C. Saewert

Computer simulation of squeeze moulding and validation of results using Industrial Computer Tomography (ICT)

[Abstract](#)   [Full Text PDF](#)

M. Slazyk , K. Smyksy

Analysis of basic phenomena occurring in the vacuum-assisted moulding process

[Abstract](#)   [Full Text PDF](#)

K. Janerka, D. Bartocha , J. Szajnar, M. Cholewa

The influence of different kind of carburizers and carburization on the effectiveness and iron structure

[Abstract](#)   [Full Text PDF](#)

D. Myszka

Austenite-martensite transformation in austempered ductile iron

[Abstract](#) [Full Text PDF](#)

S. Pietrowski, B. Pisarek

Computer-aided technology of melting high-quality metal alloys

[Abstract](#) [Full Text PDF](#)

E. Ziólkowski

Algorithms of furnace charge burden optimisation in foundries

[Abstract](#) [Full Text PDF](#)

A. Bielecka, Z. Konopka, A. Zyska, M. Łągiewka

Investigation of pressure die casting of the aluminium alloy matrix composites with sic particles

[Abstract](#)   [Full Text PDF](#)

J. Danko, J. Stojek, R. Danko

Model testing of casting process in cold-chamber die casting machine

[Abstract](#)   [Full Text PDF](#)

Z. Jedrzykiewicz

Modeling and simulation tests on lift valves operating in the hydraulic system of a pressure casting machine

[Abstract](#)   [Full Text PDF](#)

A.A. Mityayev , S.B. Belykov

Improvement of quality of secondary aluminium alloys in conditions of mass production

[Abstract](#) [Full Text PDF](#)

I.P. Volchok, A.J. Jakovlev

Materials for conveyor pouring ingot moulds of non-ferrous alloys

[Abstract](#) [Full Text PDF](#)

R. Władysiak

Effective intensification method of die casting process of silumins

[Abstract](#) [Full Text PDF](#)
